

*Performance more powerful
than your imagination!*

 XTCERA

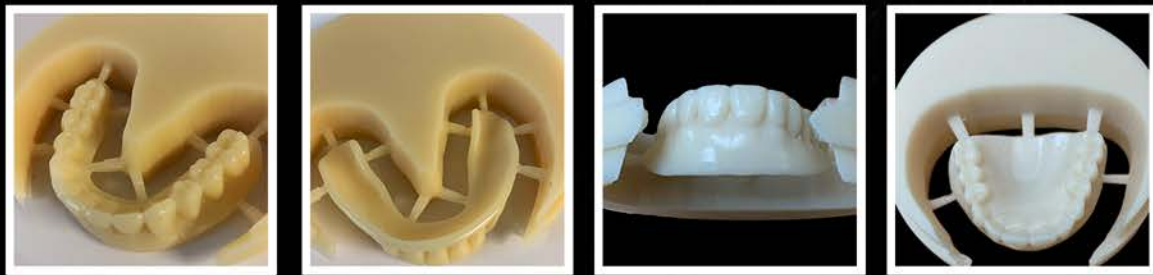

X-MILL 500

5 AXIS / DRY

X-MILL 500

90° full arch facial milling!
Mill PMMA arches in less than 2 hrs!

24/7 Continuously working

User friendly touch screen interface

Long spindle life

Open C clamp disc holder
for larger full arches

Auto calibration

High accuracy & repeatability
industrial strength frame

Automatic suction signal port

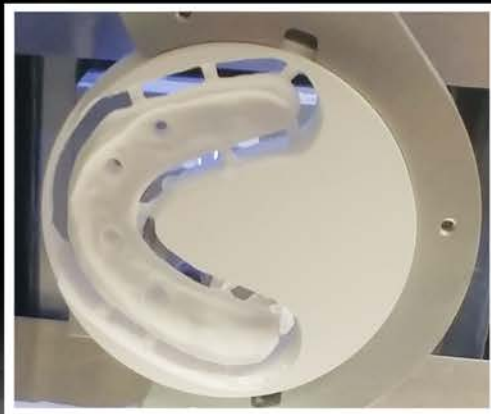

Fast precise milling, even for harder
materials (like PEEK & PMMA)

5 Axis / Dry

Solid construction and proven accuracy. Equiped with a C-Clamp, strategies, tools and more. Versitle and well supported, The X-MILL 500 shows you how affordable awesome can be.

X-MILL 500 Milling Machine Technical Specifications:

Weight:	170kg (375 lbs)
Dimensions (LxWxH):	82cm x 75cm x 72cm 32.3in. x 30in. x 29in.
Voltage:	220V A/C
Power (Max):	2.5kW
Spindle Power:	1.5kW
Speed Max:	60,000rpm
Spindle Cooling:	Water cooled
Number of axis:	5 axis
Travel Range: X:	120mm/Y:150mm/Z:80mm (A:±25°/B:360°)
Max feed rate:	6,000 mm/min.
Tool changing mode:	Automatic
Tool Magazine Capacity:	8 Tools
Processing Mode:	Dry only
Processing Materials:	Zirconia, Wax, PMMA, and Soft Co-Cr
Single Zirconia Processing time:	8 minutes (typical zirconia crown).

Get sideways with 90° facial milling!!
